Advice to Mothers
Have you had baby's photograph
taken?
It's an art to take baby's photo-
graph as it should be taken. To catch
the rosy little cheeks, his pretty little
reminiscences of babyhood's days in
years to come. We have had years of
experience in photographing children.
They always look their best when we
take them. No troublesome posing.
Snap them in a jiffy.

LAUGHTON,
The Photographer.
Opposite Norwich Savings Society.

Suit Cases and Bags
for Summer traveling.

Foley's Honey and Tar Compound
is effective for coughs and colds in
either children or grown persons. No
opiates, no harmful drugs. In yellow
package. Refuse substitutes. Lee &
Cagwood Co.

MAGEE OUT FOR REST OF SEASON

Suspension in Addition to \$200 Fine For His Recent As-

sault on Umpire—Athletics Win at Chicago—Herzog

Traded Back to New York.

New York, July 21.—The suspension of Sherwood Magee, outfielder of the Philadelphia National league club, will last the rest of the league's playing season. Magee was indefinitely suspended by President Lynch as a result of his recent attack on Umpire Flinn during a game at Philadelphia. Today President Lynch, who had previously imposed a fine of \$200, the limit allowed by National league rules, upon Magee, made the term of the player's suspension definite in the following announcement:

"The status of Player Magee of the Philadelphia club was today officially determined by President Lynch of the National league. Mr. Lynch stated that Magee had been guilty of the most flagrant violation of rule 70 of the playing rules by his unprovoked assault on Umpire Flinn during the progress of a championship game at Philadelphia on July 10. The assault followed by public statements coming from the player and accepted by officials of the Philadelphia club to the effect that Umpire Flinn had applied a vile name to the offending player. This charge has been found absolutely untrue. Under the powers conferred by playing rule 67, and for the good of the game, President Lynch has fixed Magee's suspension for the remainder of the playing season of 1911, in addition to the fine of \$200 previously imposed."

Birmingham of Naps Suspended.
Cleveland, July 21.—Outfielder Joe Birmingham of the Cleveland American league club received notice today from President John Johnson of his indefinite suspension. Birmingham had an argument with Umpire Perrine yesterday. This is the fourth suspension of the year in the American league.

HERZOG GOES TO GIANTS.
Boston Infielder Traded for Bridwell and Gowdy.
Boston, July 21.—Charles L. Herzog, who was recently suspended for a few days by the Boston National league club on account of a controversy with President Russell, was today traded to the New York Nationals for Albert Bridwell and Henry Gowdy. Herzog is an infielder, while both Bridwell and Gowdy are also infield men, the latter being a comparatively young player.

New York, July 21.—The deal between the New York and Boston National league clubs will become immediately effective. Manager McGraw in announcing late today that he had traded Shortstop Bridwell and Substitutes First Baseman Gowdy to the Boston Nationals, said he expected Herzog to start from Boston general manager. McGraw said he would play him tomorrow at short in the game between New York and St. Louis.

By this trade both Herzog and Bridwell will go back to their old clubs. Herzog was with New York in 1908, and was traded with Outfielder Collins to Boston for Beals Becker, the present utility outfielder of the New Yorks. Bridwell came to New York in the spring of 1908 in the big deal whereby McGraw, Dahlgren, Swartzburg and Bowerman went to Boston in exchange for Herzog.

Summit Streets Win Again.
The Summit Street Sluggers defeated the Cliff Streets by the score of 9 to 8. The umpire was Red Hamlin. The winners' battery was Fallon and McCormack. The losers, Desmond and Hanafin. Signed by Manager Swartzburg.

FINANCIAL AND COMMERCIAL.

RAILROAD STOCKS SOAR.
Union Pacific Brings Highest Price of the Year.
New York, July 21.—After a day of dullness and narrow movements, the stock market was enlivened shortly before the close today by a renewed outburst of speculative activity, such as carried up prices rapidly earlier in the week. As was the case before, the buying movement was concentrated upon the leading railroad stocks, among which Union Pacific was most prominent. Large blocks of the stock were bought on a rapidly rising scale of prices. The last sale was at the high price of the day, 191 3/4, which was also the highest figure of the year.

The gain of two points in this issue was larger than in most of the other shares, but the upward movement was general. Many other high prices were reached in the afternoon, and the average at the close stood at the highest point since April of 1910. Canadian Pacific once more touched the highest point in its history, today's mark being 247.

Although interest in the local traction situation was still keen, today's developments had far less influence upon the market than was the case yesterday. Dealings in these shares were on a much smaller scale, and at no time did the list betray the confusion of the previous session. Another noteworthy feature of the day's trading was the upward movement of the subway extensions to the Brooklyn Rapid Transit company was followed by only a comparatively small movement in the stocks affected. Interborough Metropolitan rose off fractionally, and later recovered. The Brooklyn Rapid Transit rose a point, and subsequently lost it, the day's results in both cases being insignificant. While the apathetic reception of the day's trading news was due in part to the fact that it had been forecasted by yesterday's developments, a contributing factor was Wall street's lack of understanding as to the meaning of the present situation. Inasmuch as a company is to be formed to undertake the construction of new subways, and the relations of the present corporation to the new concern have not been defined clearly, it is uncertain what, if any, benefits the stock will derive from the new arrangement.

Canadian Pacific's advance attracted attention only yesterday, because the stock was under pressure because of selling from abroad. Minneapolis, St. Paul and Sault Ste. Marie and Wisconsin Central line rose with Canadian Pacific. The Hill issues made a further advance, being well absorbed on moderate offerings. Expectations of adoption of the Canadian reciprocity treaty were set forth as a cause of the strength of the railroad stocks of the Canadian and Northwestern groups.

United States Steel was under some pressure during the early part of the session, but closed the day with a good fractional gain.

The general list was steady throughout the session, with small gains, until the final upturn.

The movement of cash for the bank week points to a gain of from \$3,000,000 to \$4,500,000, with prospects of a less contraction.

Bonds were steady, with no change in government issues on call. Total sales, par value, aggregated \$2,322,000.
